03 || HEALING

WHEN HEALING, IT IS NATURAL FOR YOUR SKIN TO ITCH IN THE TATTOOED AREA.

To avoid infection or damage to the tattoo, **DO NOT SCRATCH IT**. Let your skin heal naturally.

If itching is too annoying, **GENTLY TAP** the tattooed area.

REMEMBER!

IF YOU WASH YOUR TATTOO TOO OFTEN or forget to put dressing, you increase the risk of infection and you may damage the tattoo.

WEAR LOOSE, CLEAN AND LIGHT CLOTHS that do not irritate and scratch the tattooed area.
